Objective

Driven software engineer with a passion for problem-solving and rapid learning. Seeking opportunities to further my expertise and gain valuable experience in my field. Excited to contribute to innovative projects and collaborate with a dynamic team

Education

Bachelor's degree in Software Engineering, Very Good   Oct 2020 - Jun 2024
Jordan University of Science and Technology, Irbid

Skills

Programming Languages: Java, C++, Python, C#

Technologies: HTML, CSS, JavaScript, PHP, Dart(Flutter), JavaScript(React.js)

Database Technologies: SQL

Soft Skills: Quick Learner, Analytical Problem Solver, Strong Time Management, Effective Teamwork, Adaptability to new technologies.

Projects

Bus Reservation Website (Graduation Project)
- Description: Collaborated on the development of a bus reservation website using React.js, customized for the Jordanian University of Science and Technology community.
- Technologies Used: React.js, HTML, CSS, JavaScript
- Role: Collaborated on coding and functionality implementation.

Healthcare Appointment Booking Application (The Crown Prince Award - 3rd Session)
- Description: Participated in "The Crown Prince Award for Best Government Service Application" competition, collaborated on the development of a non-profit, symbiotic application aimed at facilitating the booking of medical appointments in hospitals and health centers across Jordan. The application incorporated a nominal cost for appointments, with proceeds directed to a fund supporting uninsured individuals in accessing healthcare services.
- Technologies Used: Flutter for cross-platform development, Firebase for backend services
- Role: Contributed to coding and implementation of key features.
